10:30 – 12:00	Innovation with limited disruption: Upgrade to SAP ERP 6.0 as the first step to your SAP Business Suite SAP is delivering on its commitment to help customers experience the business value of Service Oriented Architecture (SOA) by evolving its product release roadmap for ERP. We will be addressing the future roadmap for SAP ERP and the importance of an upgrade path and how upgrading to SAP ERP 6.0 can give you competitive advantage to adopt the SAP Business Suite 7.	SAP Rafael Perez <i>Program Manager</i> Location - Main Room
10:30 – 11:30	Application Lifecycle Management- You have questions, LiveCompare has the answers. The SAP lifecycle has become more complex as SAP customers have adopted an increasing range of product beyond ERP such as HCM, SCM, BW and CRM. Independent upgrade cycles, multi-system landscapes, and the prospect of merging production systems all weigh heavily on the minds of Business and IT. These important events bring many important questions. Traditionally these questions have been answered by manual analysis. A process that is time consuming, expensive and risky. The alternative is LiveCompare - IntelliCorp's sophisticated analysis and diagnostic software built exclusively for SAP users.	Intellipcorp Greg Smith <i>Regional Sales Manager</i> Tim Chang <i>Senior Product Specialist</i> Location – Breakout Room 1

10:30-12:00	SAP CRM for Utilities Learn how a utility company can manage customer relationships efficiently and increase service quality, profitability, and customer loyalty while attaining corporate performance goals. Gain insight into marketing, sales, and service functions of mySAP CRM that are tightly integrated with utility-specific functions such as billing, invoicing, contract accounting, and energy data management. See demo of new SAP CRM 7.0 solution.	Nsight, Inc Anudeep Bhatia <i>Managing Director</i> Location – Breakout Room 2
10:30 – 2:00	Business One Track (See next page for agenda)	Business One Carl Lewis Location – Breakout Room 3
12:00 – 1:10	Break, Lunch and Networking	
1:10 - 2:10	Adopting SAP SRM with lower total cost of ownership SAP SRM One Client is an innovative solution path for ECC customers to harness the end-to-end procure to pay processes available in SRM but don't have the time to implement it in the traditional method. In today's environment, customers want to take advantage of their current system landscapes and innovate their existing SAP components to its full potential without having to make new investments in hardware. SAP SRM One Client makes all that viable with the following components: <ul style="list-style-type: none"> - Self-Service Procurement - Catalog and Content Management - Supplier Self-Service (SUS-MM/EBP-MM) - Strategic Procurement with RFx - Operational Contract Management 	SAP Richard Feco <i>Principal Consultant</i> Location - Main Room
